GUARANTEED RELIABILITY AND ACCOUNTABILITY:

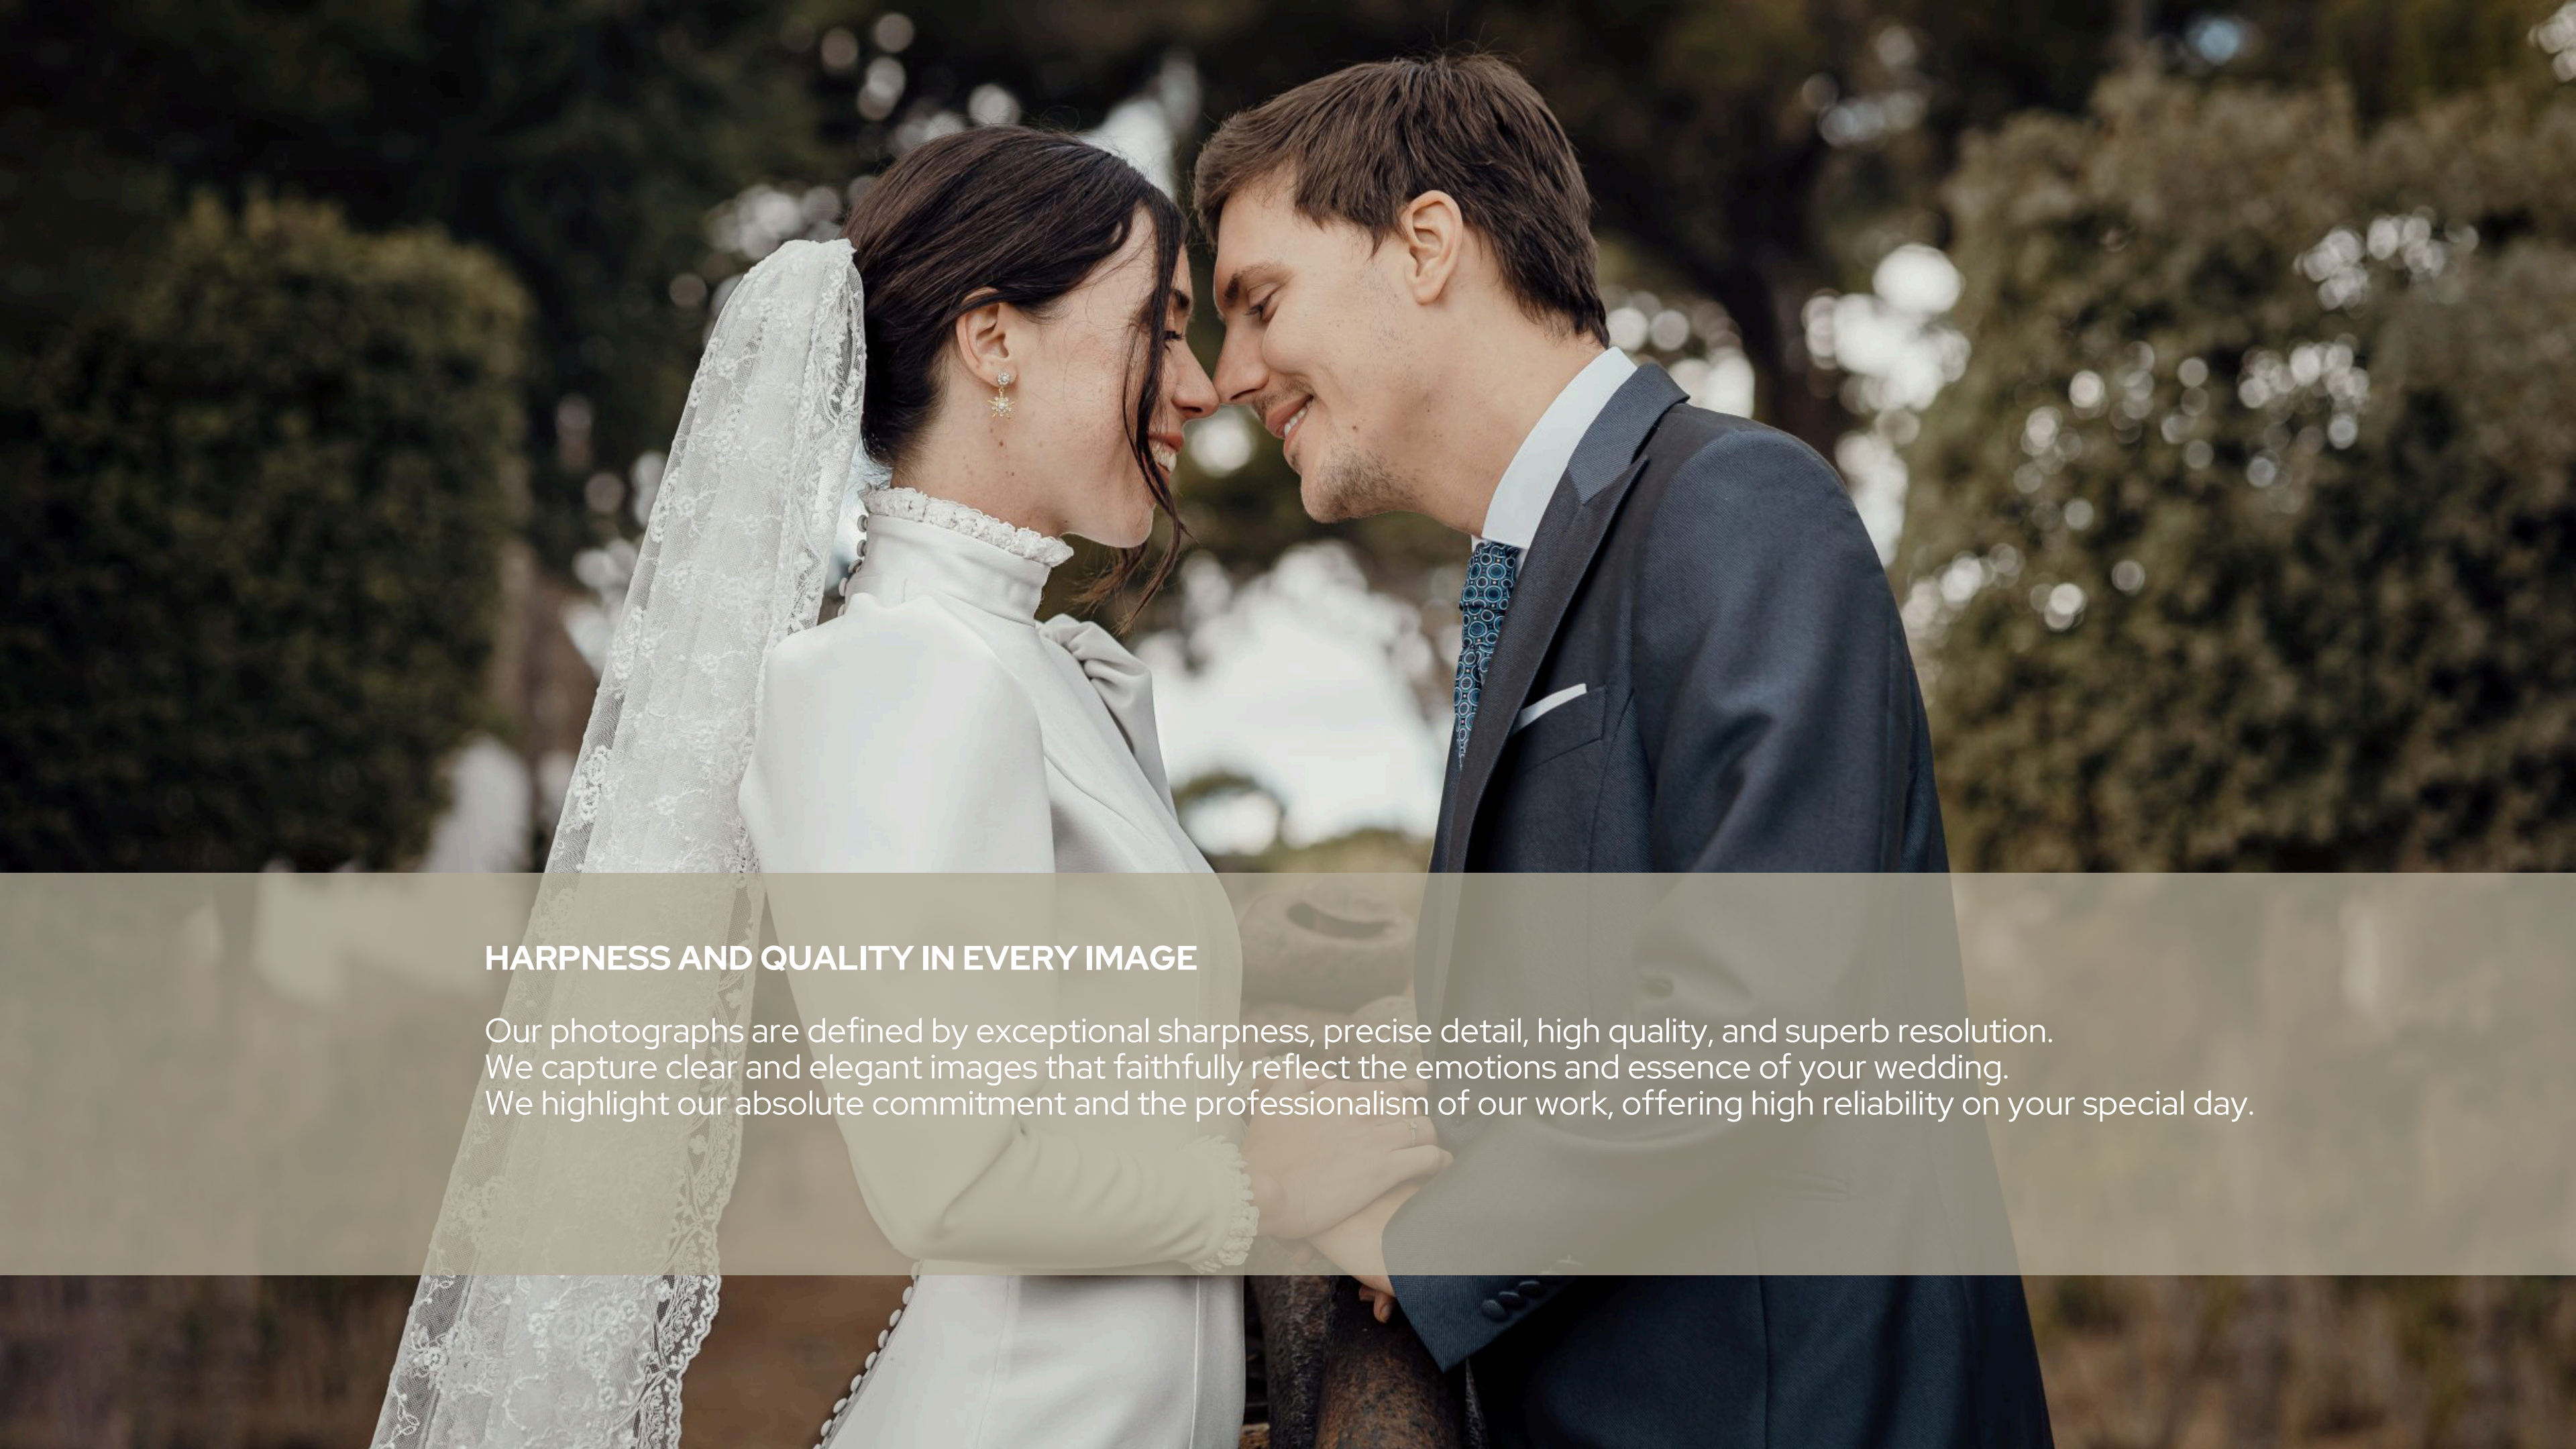

By working with two photographers, you benefit not only from broader coverage but also from a guarantee of reliability and efficiency. We double our capacity to capture every moment, minimizing the risk of missing crucial shots. 100% reliability—with no margin for error.

Six reasons to choose this package:

1. Being in two places at once if necessary: With two photographers, we can be in two different locations simultaneously.
2. Professional quality: We use specialized lenses to adapt to every situation—from wide-angle lenses to macro photography for capturing small details, as well as top-tier portrait lenses. We guarantee flawless results.
3. We want to offer you peace of mind and a sense of security. Our cameras use dual memory cards, meaning every photo is saved to both cards; we create a backup of all files from the very first moment. This ultra-secure protocol reduces the risk of incidents to zero. We both work this way throughout the entire wedding, ensuring every moment is captured with maximum reliability.
4. Simple, organized digital delivery: All material is delivered sorted into folders, allowing you to download it quickly and conveniently.
5. Absolute peace of mind: Having two photographers ensures every moment is covered. More angles, more details, and greater security for your big day.
6. Backup service for your photos: We store your images for one year.
